To whom it may concern,

Re: Mr Roger Moss

In my capacity as a representative of a major worldwide automobile company it has been my pleasure to work, since 1981, with Roger Moss.

During that time he has shown a continuing high degree of inventiveness and resourcefulness and his honesty in business dealings has, I believe, been second to none.

One point which I remember very clearly was the pride he showed at Moss Machine Tools in not only employing 100 people but also that this meant that 100 families were fed and clothed and had a roof over their heads because of the employment opportunities that he made available.

I am sure that should Mr Moss now continue in any other business venture he will do so with the same level of honesty and commitment that he has already demonstrated and I wish him every success.

Should anybody have any questions about this reference I will be only too willing to answer them.
